Italian Slate

COLOR OPTIONS:

Note: All colors shown are intended to show the approximate color of finish, choices, and ranges. Colors are achieved after 2 coats of a penetrating clear sealer. DO NOT use this chart as a final selection, for colors are affected by site conditions and installation procedure. SureCrete recommends making final selections from job specific samples made in the field.

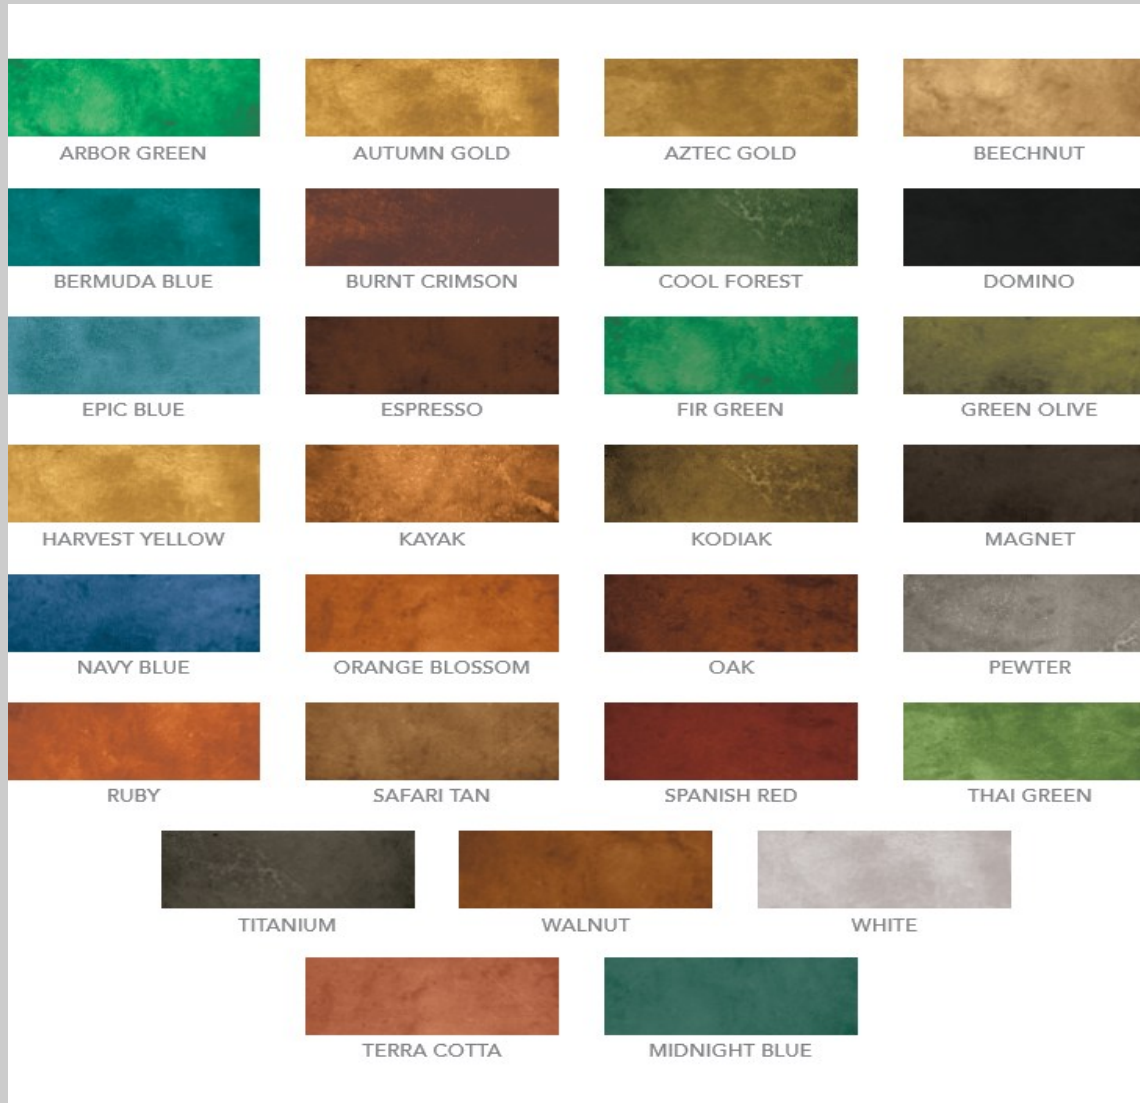

Color Packs are used for white bag mixes only including: SureStamp, SureSpray, SureTex, SureBroom and the Xtreme Series bag mix. This color chart is not for Ready Mix or integral color use for concrete.

+ These colors are for pigmented sealer in range Special Color 1, and have a higher cost

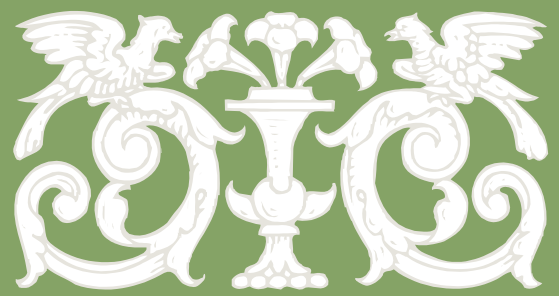

EDGEWISE CONCRETE OVERLAY

Add Impact with Release Agent Colors!

Note: Colors are based on grey concrete with stain applied at full strength, no dilution with two applications, and is sealed with a penetrating color enhancing sealer. SureCrete recommends the use of SCR (Super Concrete Renovator) for surface preparation preceding the application of Eco-Stain. Color samples on this chart represent the color of finish as closely as possible. Color variations may occur due to differences in cement, aggregates and methods of application.
